Save Costs and Simplify Your IT with Desktop-as-a-Service (DaaS)
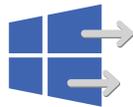

What if there was a better way to provide users everything they needed to do their job? With DaaS, we can help you remove the complexity of managing individual desktops for your users while increasing security and compliance, making it easier for employees to work from anywhere.

THE CHALLENGES OF MANAGING INDIVIDUAL DESKTOPS

Managing a desktop for every individual user can come with many challenges. Can you relate to any of these?

Enabling secure mobility to your workforce

Migrating to Windows 10 or the latest version of Office

Trouble keeping up with software or hardware updates

Difficulty meeting new hardware needs with lower IT budgets

DESKTOP-AS-A-SERVICE OFFERS A BETTER APPROACH

With DaaS, there's no hardware or software to purchase or manage. Your user's apps, data and personalized desktops live in our secure cloud and are delivered to their devices over the Internet. We take care of security, support and compliance while you simply pay a predictable monthly fee that can shrink down or scale up as your business changes.

DaaS provides more freedom for users in device choice and connectivity, without exhausting your organization's bandwidth.

Powered by secure compliant infrastructure

Desktops that include your key productivity tools and key applications

Securely delivered to any device

HOW ARE ORGANIZATIONS BENEFITTING?

DaaS is simple to buy and manage. But most importantly, it's a service that both users and IT staff benefit from.

CLOUD CHOICE
Use our secure cloud, or Amazon or Azure if you have already invested in cloud.

LOWER AND PREDICTABLE COSTS
There's no hardware or software to purchase or manage, just a predictable monthly cost based on how many users you have.

BUSINESS CONTINUITY
With DaaS, backup and disaster recovery functionality is built in.

MORE MOBILITY
Users can securely access their desktop anywhere they have an internet connection.

WE CAN HELP YOU GET STARTED

Thanks to our world-class data center and partnership with technology leaders, there is no one more qualified to provide an amazing DaaS experience for your users.

50+ on-call experts ready to provide support and expertise to review, monitor and manage

Deep understanding of requirements to ensure you can remain secure and compliant

World-class data center that is capable of handling any requirements

STOP DEALING WITH THE HEADACHE

Reach out today to schedule a highly interactive meeting with one of our experts. We'll answer your questions, discuss your requirements and provide a quote so you can see if Desktop-as-a-Service can save costs in your organization.
