With all the talk about Square in the news lately, it is easy to follow the trend or you can take a look at all the facts below and decide for yourself. NewtPay Mobile is the better mobile processing solution for REAL businesses.

	NewtPay Mobile	Square
PROGRAM DETAILS		
Receiving Your Money	Robust automated security system helps to eliminate the unnecessary hold of funds.	Funds are held for an undetermined amount of time for large transactions. Quicker deposit times cost 1.00% and are limited to \$2,500.
Pricing	Flexible tiered pricing structure starting at 1.69%.*	Flat 2.75% for swiped and 3.50% for manually entered transactions.
Customer Support	Toll-free LIVE phone support 24-7-365 and email support.	Email only customer support. Phone number directs all questions to the website.
Card Reader	A single PCI-Validated EMV card reader that works securely and seamlessly with your Apple or Android phone.	Need two encrypted card readers that work with Apple and Android products: one for chip and one for swipe.
Personal Information	All customer information is kept secure and private.	Square is able to sell your personal information to 3rd parties according to their terms.
Benefit of a Merchant Account	Personalized merchant account provides extra security, a direct relationship and control over taking payments.	With aggregated accounts support and security are not the focus of the aggregators. No direct relationship.

*Please see reverse side for pricing structure.
